

East Cobb Pipeline Project

Frequently Asked Questions

1 dXUhYX'11#%1/%6

What days of the week and during what hours will construction take place?

– Crews' typical work schedule will be Monday – Friday, 7am – 6pm, with occasional periods of 24-hour work. Barricades will remain in place 24/7. If work is delayed by rain or other issues, Saturday work might be authorized so the project can stay on schedule.

TRAFFIC ISSUES

What will happen to traffic? Will roads or lanes be closed?

– Motorists can expect lane closures throughout the project within the construction segments. Lane closure segments will typically be about 1,000 to 3,000 feet long.
– Cobb County Police will be on hand to direct traffic at intersections to ensure smooth traffic flow.

Will detours and alternate routes be provided?

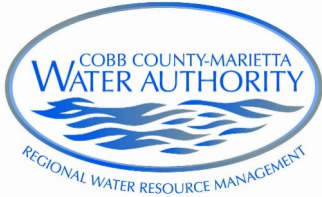

– There are no official alternate routes for sections 1 and 2 of the project. Motorists should expect delays along the construction route and therefore allow themselves extra time.
– For the safety of neighborhood residents, we ask motorists not to cut through residential streets.
– GPS devices can help motorists find alternate routes, and real-time traffic updates can be found at www.cobbcommute.org.
– In the event of full road closures, at least one official detour will be provided, and police will be on hand to assist.

Will traffic signals be affected?

– CCMWA and our contractor are coordinating with Cobb County Department of Transportation (DOT) to minimize any impact on traffic signals. Some signals might be temporarily affected by construction, but Cobb County Police will be directing traffic at intersections to during those times to ensure safe traffic flow.
– **If you have concerns about traffic signals, call the CCMWA East Cobb Pipeline Project hotline at 770-514-5301. The public can also call Brook Martin, DOT Traffic Signal Engineer, at 770-528-4065.**

Where can I go for up-to-date information about work progress, road/lane closures and other traffic concerns?

– **Cobb County-Marietta Water Authority is the primary source of information for this project.** You may check our website, www.ccmwa.org, for project updates or to submit questions via e-mail, and call our hotline at 770-514-5301 to ask direct questions. (All calls to the hotline received before 3pm will be responded to the same business day; calls coming in after hours will likely be responded to the next business day.)
Real-time traffic updates can be found at www.cobbcommute.org.

OTHER QUESTIONS AND CONCERNS

Will water be shut off at my home or business?

- CCMWA does not plan any interruptions to water service.

Whom do I contact if my water is suddenly shut off?

- If you lose water service, please call Cobb County Water System at 770-419-6201. Cobb County Water System will notify customers of any scheduled outages.

Whom do I contact if my property is damaged?

- Please call the CCMWA hot-line at 770-514-5301 or submit a question online via the "Contact Us" page or our website, www.ccmwa.org.

Whom do I contact if I have any questions or problems?

- Please call the CCMWA hotline at 770-514-5301 or submit a question online via the "Contact Us" page of our website, www.ccmwa.org.

How can I be notified of upcoming changes or issues?

- **The CCMWA website, www.ccmwa.org, is always the best source of timely project information.**
- Updates will also be included in weekly e-mail blasts sent out by Cobb County and the Cobb County Commissioners' offices, and traffic information such as road or lane closures will be available through Cobb County Department of Transportation traffic alert sources.
